

# CLOUD CONNECT

The Future of Seamless Cloud Integration

PS LIGHTWAVE is excited to introduce Cloud Connect. Our cloud connect solution provides organizations with a private, dedicated connection between their on-premises IT infrastructure and cloud computing services.

## WHY CLOUD CONNECTIVITY IS ESSENTIAL

In today's digital landscape, cloud connectivity is not an option but a necessity. Choosing PS LIGHTWAVE means direct access to the world's largest cloud providers, saving valuable time and resources that can be directed towards other critical aspects of your business.

PS LIGHTWAVE connects you to all major cloud services, offering direct access to leading providers like **Amazon Web Services**, **Google Cloud**, **Microsoft Azure**, **Oracle Cloud**, **IBM Cloud**, and more. Our backbone ensures secure, reliable, and high-performance connectivity, bypassing the public Internet.

Extend your network perimeter to the cloud with PS LIGHTWAVE's simple (Layer 2 Ethernet port options of 1G, 10G, 100G), dedicated, and private connections.

## CLOUD CONNECT BENEFITS

- **Enhanced Security** with dedicated, direct, private connection
- **Increased Reliability** with 99.999% network uptime
- **Improved Performance** with reduced latency + increased bandwidth
- **Cost Savings** by optimizing your cloud architecture
- **Flexibility** of seamlessly scaling your network bandwidth to meet your needs with options from 50Mbps to 10G

## SIMPLE PRICING

Our flexible pricing options accommodate your changing bandwidth needs, allowing your business to pay only for what you need.

## BOTTOM LINE

- Control
- Simplicity
- Scalability
- Security & Reliability
