

MICROSOFT TEAMS VOICE CONNECTOR

Extend Your MS Teams Experience to Include Inbound/Outbound Calls

MAKING THE MOST OF MS TEAMS ACCOUNTS!

PS LIGHTWAVE, one of the largest locally owned and operated fiber network providers now offers Microsoft Teams Voice Connector Services!

We offer a more flexible, consistent experience over all voice devices (including cellular), collaboration & content sharing, direct routing to allow MS Teams users to connect to outside Public Switch Telephone Network over our all fiber network, access to all of your contacts with any voice device, and number masking for outbound calls.

Enjoy the benefits of increased agility & consolidated management with rapid provisioning, reporting, & diagnostics of voice services in Office 365, a connected workforce & empowered team that collaborates & works smarter together. Uses your existing infrastructure to take advantage of the benefits Microsoft Teams offers. Reduces costs by taking advantage of PS Lightwave's highly competitive calling packages.
